Professional Summary

Innovative and dedicated **Mobile Application Developer** with **4 years of experience** in **Flutter mobile development**, delivering enterprise-scale solutions for **Android and iOS** platforms. Skilled in **RESTful APIs**, **SAP ERP integration**, and **agile collaboration**, with a passion for transforming business requirements into **scalable and maintainable applications**. Proficient in **Flutter, Dart, Kotlin**, and **Clean Architecture**..

Technical Skills

Mobile Development: Flutter, Dart, Kotlin, Android, OOP, SOLID Principles, State Management (Bloc, Provider, Cubit).

Web Development: HTML, CSS.

APIs & Integration: RESTful APIs, SAP Integration, Firebase, Dio, Retrofit, Postman, Google Services.

Database: SQLite, Hive, Firebase Firestore, SharedPreferences.

Architecture: MVVM, MVC, Clean Architecture.

Testing & Deployment: Unit Testing, Integration Testing, CI/CD, Firebase Distribution, Play Store, TestFlight.

Enterprise & Agile Tools: Jira, Scrum, Kanban.

Version Control: Git, GitHub.

Soft Skills: Teamwork, Communication, Problem Solving, Work Under Pressure, Agile Collaboration.

Professional Experience

TransTec for Business Development Solutions – Cairo, Egypt

Senior Flutter Developer (Feb 2025 – Present)

- Led the design and development of a **Flutter-based Custom Portal** integrated with **SAP APIs**, enabling seamless data synchronization and workflow automation – **reduced manual data entry time by 40%**.
- Implemented **multi-language support** and **responsive UI**, improving **user satisfaction by 30%** based on internal surveys.
- Delivered **real-time dashboards** for Orders, Invoices, and Deliveries – resulting in a **25% faster decision-making process** for managers.
- Collaborated in an **Agile environment using Jira**, enhancing sprint delivery rate by **20%** and improving team productivity.

HO Group – Cairo, Egypt

Mobile Application Developer (Android & Flutter) (Dec 2023 – Feb 2025)

- Developed and deployed **cross-platform mobile solutions** integrated with SAP ERP, **automating workflows** and **saving 200+ man-hours per month**.
- Applied **Clean MVVM architecture** and advanced state management, reducing app crash rates by **35%** and improving stability.
- Conducted **testing and optimization** that cut average load time by **40%** across Android and iOS platforms.
- Supported digital transformation by delivering **secure, scalable mobile systems** now used by **1,500+ employees** organization-wide.

DLT Software – Cairo, Egypt

Flutter Developer (Sep 2022 – Dec 2023)

- Delivered **12+ production-grade mobile apps** with Firebase and REST API integration – collectively exceeding **50K+ downloads**.
 - Mentored junior developers, boosting team delivery speed by **25%** through code reviews and training sessions.
 - Led **performance optimization initiatives**, improving app response time by **30%** and reducing memory usage.
 - Designed intuitive **UI/UX interfaces** that increased user engagement and **retention rate by 20%**.
-

Key Projects

Umbrella App (100K+ Downloads) – E-commerce Platform (B2C & B2B)

 [Google Play](#) | [App Store](#)

- Developed a scalable Flutter app with Firebase, APIs, and analytics integration.
- Achieved 100K+ downloads with optimized performance and smooth UX.

KSI Forensics App – Property Damage Assessment Tool

 [App Store](#)

- Created a field assessment tool for insurance adjusters with offline functionality and real-time reporting.

Ho Assets App – Enterprise Asset Management Solution

 [Preview](#)

- Built an asset tracking app using Firebase & SQLite with responsive UI and Bloc/Cubit architecture.

Custom Portal (SAP Integration) – Enterprise ERP Mobile Platform

 [Preview](#)

- Developed and deployed SAP-integrated ERP mobile solution supporting multilingual access and secure data exchange.
 - Contributed to **enterprise digital transformation** through mobile-first innovation.
-

Education

Bachelor of Science in Computer Science and Bioinformatics

Faculty of Computer and Artificial Intelligence, Cairo University (2018 – 2022)

Final Grade: *Very Good*

Graduation Project: *Natural Neural Vision Algorithms Using Deep Learning* – Grade: A+
